EDISONmama

– BABY SUCTION PLATE –

Place it once, keep it there forever.

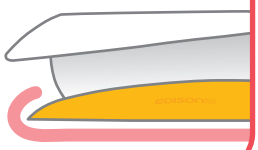
KEY BENEFITS

- Lab-tested: Free of lead, cadmium, and other toxic materials.
- Strong suction base adheres to most surfaces and helps prevent messes and spills.
- Slopped bottom slides food to the corner. Curved rim and rounded corner make scooping easier.

Suction Base

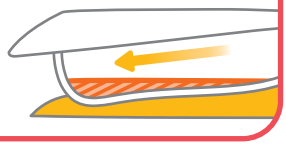
Suction

Makes self-feeding easier and keeps the plate in place.



Sloped Bottom

Helps slide food to the corner, making those last bites easier for little ones to get on their utensils.

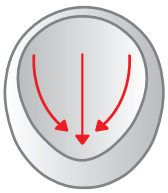


Curved Rim

Helps guide more food onto babies' utensils.

Rounded corner

Makes it easy to gather the food to the corner.



Eating time can be chaos time. This stay-put plate is one less thing for you to worry when your little eater starts self-feeding.

Babies will enjoy a mess-free mealtime with this EDISONmama plate!

More suction equals less mess!
